Report of the Board of Health.

ORGANIZATION

F. A. BOGARDUS, President

H. L. WEBSTER, Treasurer

GEO. W. CHASE, Secretary

We have had eight cases of diphtheria (one fatal). Ten cases of scarlet fever, seven of which were in one family at the Center, and by prompt action was kept from spreading. We have had sixty-one cases of measles reported; making it a very measly time for the doctors and the Board. Most of these cases have been of a mild form and owing to the use of Antitoxin, diphtheria is much more easily controlled.

The usual ditch question came up in the summer and doubtless will until there is a good sewer built to the river at Canaan village.

There has been no other serious complaint brought to the notice of the Board. We have made our reports to the secretary of the State Board according to law; also to the Surgeon General at Washington, D. C.

Respectfully submitted,

GEO. W. CHASE, Secretary.

Town Library.

Trustees' Report of Canaan Town Library.

FOR THE YEAR ENDING FEB. 15, 1910.

The increase in the number of books in the library due to the Williams bequest and the donations which have been received during the last two years made necessary the building of new bookcases and a rearrangement of the books so that they might be readily found.

There had not been any catalogue printed of the books for some years and that was not complete, and with the increased number of volumes the cost of printing a new one would be greater than could be afforded; making the cost of one copy so much that few would buy. The trustees decided that a catalogue system would be the proper way to arrange them such as is used in the State library.

The listing of the books on cards disclosed that many had not been catalogued. The card catalogue is not yet completed, but it is in working order. The names of books are alphabetically arranged in one case, and the names of the authors in another.

It is now as good a working library as any town in the State has, with the amount that has been expended upon it. It contains the latest books of reference; the best books on American history, as well as other countries; the latest works on agriculture and kindred subjects; one case is full of biography and travel; there are standard novels of all countries and as good a selection of children's books as could be obtained.

The trustees believe that every section of the town should take advantage of it. If some person, say at West Canaan, would find out from his neighbors what books they wanted, and come for them; the next time let his neighbor come and make the exchange; in this way taking

turns, the trustees will assist all they can. What would be a better arrangement would require some expense, which the trustees are not at liberty to meet; pay for the transportation of twenty or thirty books to some one who would attend the loaning and exchange of them, making a branch library, as it were; then every part of the part of the town could be reached.
